# OceanAGE Careers

Ocean Careers to Inspire Another Generation of Explorers

<http://oceanexplorer.noaa.gov/edu/oceanage/welcome.html>

National Oceanic and Atmospheric Administration (NOAA) Office of Ocean Exploration and Research

Hugo Marrero  
Submersible Pilot

Richard Conway  
Chief Electronics Technician

Brian Kennedy  
NOAA Corps Officer

The NOAA Ocean Explorer OceanAGE web presence (<http://oceanexplorer.noaa.gov/edu/oceanage/welcome.html>) is a unique online educational resource that enables users to learn more about a variety of ocean careers available to those interested in work on or in the ocean. The site is populated with a wide variety of talented people who explore our ocean planet, and range from explorers, graduate students, submersible pilots, and vessel crew to NOAA Corps Officers. The target audience for this interesting mini-database of scientific and technical careers is students of any age, and any other user groups interested in learning more about the diversity of career options for scientific and technical work that supports ocean exploration and research careers at sea.

Components of the OceanAGE site consist of video profile interviews presenting a multitude of scientific careers, supplemented with imagery, biographies, and other related content and resources.

Dr. Kristin Laidre  
Marine Mammal Biologist

Colleen Peters  
Senior Survey Technician

## Current: The Journal of Marine Education

In this issue of *Current: the Journal of Marine Education* (Volume 28, Number 1, 2012), the NOAA Ship *Okeanos Explorer* "comes alive," capturing the enthusiasm of the ship's officers, crew, and explorers as they live and work onboard the nation's first dedicated ship for ocean exploration.
