College of Exploration & European Union Micro B3 Project

for Educators, Scientists, Policy Makers and Interested Public

Ocean Sampling Day and My Ocean Sampling Day & Transatlantic Ocean Science and Ocean Literacy Online Workshop

May 4 – May 22, 2015

During the period around June 21 2015 scientists and citizen scientists around the world will sample the ocean using a variety of methods.

You can join this program by participating in MyOSD. Join the online workshop to learn more about the Ocean Sampling Day project, and learn how to participate in the Citizen Science project MyOSD. Meet the scientists involved in the project, and learn about the importance of microbial biodiversity. Join conversations with colleagues from around the world.

Speakers

Dr. Anna Kopf, Julia Schnetzer, Dr. Renzo Kottman
Ocean Sampling Day, Jacobs University, Bremen, Germany

Dr. Kelly Goodwin, Dr. Maribeth Gidley and Dr. Christopher Sinigalliano,
NOAA AOML Environmental Microbiology Laboratory, Miami, Florida, USA

Dr. Katja Lehmann,
River Sampling Day, Oxford, England

Dr. Jennifer Tolman,
Marine Microbial Genomics & Biogeochemistry, Dalhousie University, Canada

Dr. Linda Amarel Zettler,
Marine Biological Laboratory, Woods Hole, Massachusetts, USA

<http://www.coexploration.org/oe2015>

Phase 2 of this online workshop (June 17- June 26) will extend the conversation to document the actions of citizen scientists participating in MyOSD and to continue to develop the network.

Educators will have the option to earn one graduate credit.
