

Student Worksheet: Habitat Complexity

Name(s): _____ Date: _____ Class: _____

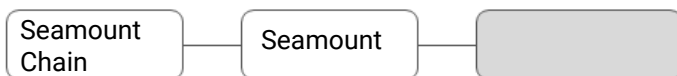

Driving Question

How can we model the physical and biological complexity of deep-sea ecosystems?

KEY	
Color	What this color represents
White	
Gray	
Red	
Purple	

Complete the word diagram to illustrate the increasing complexity of your seamount habitat.

Student Worksheet: Habitat Complexity

When considering the geology and the biology of a seamount, what might this look like in reality?

- Using the “substrate” provided, draw a more realistic version of the elements/organisms in this habitat.
- Label all items included.
